Critical Incident Policy

Introduction:

In Shountrade N.S. we aim to protect the well being of our pupils and staff by providing a safe, tolerant and well catered for environment. Consequently, the Board of Management through the Principal, Alan Kilcoyne, has drawn up a critical incident management plan (CIMP) to deal with a critical incident should one occur. A Critical Incidents Management Team (CIMT) has been established to guide the development and implementation of this plan.

What is a Critical Incident?

The staff and management of Shountrade Nation School., recognise a 'critical incident' as *'any incident or sequence of events which overwhelms the normal coping mechanism of the school and disrupts the running of the school'* (DES 2008). Critical incidents can affect one or more members of our school organisation and could include;

- the death of a member of the school community through accident, violence, suicide or suspected suicide or other unexpected death.
- an intrusion into the school.
- an accident involving members of the school community.
- an accident/tragedy in the wider community.
- serious damage to the school building through fire, flood, vandalism etc.
- the disappearance of a member of the school community.

Aim:

The aim of the CIMP is to assist school management and staff to react quickly and effectively in the event of an incident, to enable us to maintain a sense of control and to ensure that appropriate

support is offered to students and staff. Having a good plan should also help ensure that the effects on the students and staff will be limited. It should enable us to affect a return to normality as soon as possible.

Creation of a coping supportive and caring ethos in the school:

We have put systems in place to help to build resilience in both staff and students, thus preparing them to cope with a range of life events. These include measures to address both the physical and psychological safety of the school community.

Physical safety:

Examples of what the school is doing at this point include:

- Evacuation plans have been formulated and communicated to students and staff.
- Regular fire drills occur.
- Intruder alarms have been installed.
- Fire exits and extinguishers are regularly checked.
- External lighting has been installed.
- Pre-opening supervision in the school yard occurs from 8.50 am to 9.00 am, where the Special Needs Assistants and teachers supervise the yard.

Psychological safety:

The management and staff of Shountrade N.S. aim to use available programmes and resources to address the personal and social development of students, to enhance a sense of safety and security in the school and to provide opportunities for reflection and discussion.

- Social, Personal and Health Education (SPHE) is integrated into the work of the school. It is addressed in the curriculum by addressing issues such as grief and loss; communication skills; stress and anger management; resilience; conflict management; problem solving; help-seeking; bullying; decision making and prevention of alcohol and drug misuse. Promotion of mental health is an integral part of this provision.

- Staff are familiar with the Child Protection Guidelines and Procedures and details of how to proceed with suspicions or disclosures.
- Books and resources on difficulties affecting the primary school student are available.
- The school has developed links with a range of external agencies such as, Child and Adolescent Mental Health Services (CAMHS), National Educational Psychological Service (NEPS), Our Public Health Nurse, Relevant Social Workers, Relevant Childcare Workers,(CÉIS) The Early Intervention Team, The Paediatric Development Team, Relevant Play Therapists, Relevant Speech Therapists, Relevant Occupational Therapists, Adare Garda Station.
- Inputs to students by external providers are carefully considered in the light of criteria about student safety, the appropriateness of the content, and the expertise of the providers.
- The school has a clear policy on bullying and deals with bullying in accordance with this policy.
- Students who are identified as being at risk are referred to the designated liaison person (DLP), where appropriate a referral is made to an appropriate agency and parents are informed.
- Staff are informed about how to access support for themselves.

Critical Incidents Management Team (CIMT):

A CIMT has been established in line with best practice. The members of the team were selected on a voluntary basis and will retain their roles for at least one school year. The members of the team will meet annually to review and update the policy and plan.

Advance Parental Agreement to Child Being Seen

Dear Parent;

Shountrade N.S. has developed a plan for responding when a tragedy occurs.

When such an event happens, schools are offered psychologists from the National Educational Psychological Service (NEPS), an agency of the Department of Education and Science. If we feel it is necessary, we would like to be in a position to have your child seen by a psychologist who can offer advice and support.

Before any child is seen by a NEPS psychologist, parental consent is usually required. We will make every effort to obtain this. However, in the unlikely event of being unable to contact you, we are writing to seek your consent for your child to be seen by a member of NEPS as part of our schools immediate response. This is to allow us to support your child in the best way possible. Your child may be seen individually, in a small group or as part of a class group.

If you wish to discuss this, please contact me at your convenience.

Yours Sincerely

Alan Kilcoyne

Principal

Please fill in the form below confirming that you have read this letter and stating whether **you wish** or **do not wish** to have your child seen by a NEPS psychologist. Please return to [Insert School Name].

Sudden Death/Accident Notification Letter

Dear Parents

The school has experienced (the sudden death, accidental injury, etc.) of student(s). We are deeply saddened by the deaths/events.

(Brief details of the incident, and in the event of a death, perhaps some remembrances of the person lost).

Our thoughts are with (family name).

We have support structures in place to help your child cope with this tragedy. (Elaborate)

It is possible that your child may have some feelings and questions that she may like to discuss with you. It is important to give factual information that is appropriate to their age.

You can help your child by taking time to listen and by encouraging them to express their feelings. All children are different and will express their feelings in different ways. It is not uncommon for children to have difficulty concentrating or to be tearful, anxious or irritable. They may become withdrawn, cry, complain of physical aches and pains, have difficulty sleeping or have nightmares. Some may not want to eat. These are general short-term reactions. Over the course of the days to come, please keep an eye on your child and allow her to express her feelings without criticism.

Although classes will continue as usual, I anticipate that the next few days will be difficult for everyone.

(Optional) An information night for parents is planned for (date, time and place). At that time, further information about how to help children in grief will be given. We have enclosed some information which you may find useful in helping your child through this difficult time.

If you would like advice, you may contact the following people at the school - List.

Yours Sincerely

Alan Kilcoyne
